

# UAV Drone Survey

*Ideal for Roofing Inspections, Construction Site Surveys and Contaminated Sites.*

David Jameson Roofing Services stays one step ahead of the game by providing fully licensed technologically innovative services that aid in identifying both design considerations & potential issues.

Our newest surveying service facilitates project delivery by providing a bird's-eye view of projects before, during and after.

Our expert pilots can fly close to objects and reach heights of 400 feet high.

Our aerial drones can capture information that would simply not be possible using any other method.

## Our Services

- Aerial Building & Roof Surveys
- Site Progress Images and Videos
- Contaminated Site Survey (Asbestos, Structural, Fire Damage)

## Fully Licensed and Insured

- CAA (Civil Aviation Authority) registered.
- Qualified pilot
- £1m Public Liability Insurance
- High Resolution Images and Video

Aerial Photography and Videography packages available, with editing to compliment. Discounts available for regular site visits and clients
